

Be Adventurous

Be Ambitious

Be Curious

Be Kind

School Council Meeting 17/11/2023

This term school council are working on promoting Being Safe at School.

We started with talking about different kinds of safe, which can include being in a safe environment, feeling safe and also safe enough in class to make a mistake or try something new.

The school councillors went on a school tour to see the measures in place to keep our **environment** safe. We made notes as we went around.

Keeping the school environment safe included fobs on the doors which lead to classrooms, a special signing in system for visitors to the school. Gates and fences which are locked during the day.

We also noticed how tidy and clear the corridors were including the classroom doors and exits.

We are going to produce a guide for all the children in school all about how Badbury Park Primary School keeps us safe.
