

Dear Families.

The second week of term 3 is already over; children have continued to come to school with a positive attitude to learning and are all working hard. Our emphasis, as always, is on outdoor learning and we will always spend a part of the day outside; with this in mind, and with the unpredictable British weather, could you please make sure that your child has a named coat, hat, gloves and wellies in school every day.

As the weather gets colder it can become more challenging to stay safe and keep warm. There is a range of information and resources for residents of Swindon that you can access to save on heating bills. Please click on these links for more information: Welcome Spaces Staying safe and warm Help if you're struggling with living costs

Applications for a Primary School Place to start September 2024 close on Monday. If you have a child with a date of birth between 1st September 2019 and 31st August 2020 you need to make an application via the Swindon Borough Council website https://www.swindon.gov.uk/info/20071/school places and admissions/427/

primary school places and admissions. This applies to all children, even if they already attend **Badbury Park Nursery**

We hope that those who attended the curriculum meetings this week found them useful. If you were unable to attend, you can find the presentations on the school website by clicking under "class pages" and scrolling to the bottom of the page.

Have a lovely weekend

Mrs Dance

Nu<u>rsery</u>

This week we have been learning about the Three Little Pigs.

All of the children have enjoyed joining in with the words and actions — we even told the story with playdough! We have made houses for the pigs using different materials and talking about shapes.

We practised counting up to 5 and learning how we can make 3 in different ways. We also sang a funny song about little piggies balancing, taking one away each time they fell!

Reception :

Oak Tree and Ash Tree have started the new year with a bang! We have begun our new topic 'What's Beyond the Stars?' The children have been learning about planet Earth, learning about gravity and what astronauts do. They have thought of some excellent questions to ask an astronaut and found out how astronauts make lunch, wash their hair and brush their teeth in space! The children are really enjoying listening to space songs to help them learn the names of the planets and have been writing lists of things they would take on a space adventure

In maths, we have been learning about length and weight, finding objects that are big and small, heavy and light. Well done for a brilliant first week back!

KS1 Year 1 have been working hard in our school WIRE project focusing on different religions

and their practises. Across every year group, we have a chosen religion to research and present to the school in our school competition! Year 1 have been focusing on Islam and we have been working very hard at our performance and rehearsing for our assembly; we have looked at how Muslims respecting mothers (Muslims see this as a very important practise in their faith). We can't wait to perform next week! Year 1 have also been explorers in History learning about the

mait to perform next week! Year 1 have also been explorers in History learning about important explorers that have discovered things about the world we know today.

In Year 2 we have enjoyed writing calligram Winter poems which have been inspired by outside. We explored the outside environment thinking of similes to use and then wrote our poems as a calligram. We have started looking at division in maths and are looking forward to learning some new maths vocabulary!

KS2 Year 3 have started their forest school sessions with Mrs B this week. It has been a chilly week and enjoyed making a shelter to keep warm. We have been utilising the library to share some stories with our friends and have a class story read to us. In maths, we are getting onto some trickier things but we are all enjoying the challenge!

What a week it has been this week in Year 4 as we donned our swimming hats and packed our towels for our first Badbury swimming lesson. We were our brilliant Badbury-selves on the coach and at the pool. In addition to this, the rate of progress of our swimmers just in one hour was phenomenal! Thank you so much to all Year 4 parents for supporting the school by kitting out your child so well with their swim hats, swimsuits and towels. Although we were all tired after lunch, we are looking forward to next week. Elsewhere in the

curriculum we have been exploring the story of the Willow Pattern plate through the illustration, fable, ______ picture book and poem.

We have learnt about the history of Swindon Town Football Club from its inception up to 1970 and compared it to England's history nationally. In maths we have worked on consolidating our subtraction with the use of jottings to support our calculations and what happens to a number when we multiply by 10 and 100.

Parking: if there are no available parking spaces at the front of the school please do not wait on Rainscombe Road for a space to become available as this blocks the road for other users. Parking bays are available near the Co-Op or on Homington Avenue so please drive past the school and find an alternative place to park. The School Safe zone will be in place soon.

Attendance

MOMENTS MATTER, ATTENDANCE COUNTS.

On 8th January the Government launched a national campaign to remind parents and carers of the importance of school attendance. Parents have a legal duty to make sure that their children attend school every day and the New Year is a great time to reset good habits. Being in school is

important to your child's academic achievement, wellbeing, and wider development and there is evidence to suggest that regular school attendance is a key mechanism to support children and young people's educational, economic and social outcomes. Whilst some absence is unavoidable, the NHS and the Chief Medical Officer say it is usually appropriate for parents and carers to send children to school with mild respiratory illnesses, including general cold symptoms like a minor cough, runny nose or sore throat. If you are unsure whether to send your child to school, this link provides helpful guidance: https://www.nhs.uk/live-well/is-my-child-too-ill-for-school/

Having good attendance also means being on time and not being late to school. Children who arrive late can feel

embarrassed, left out and miss out on important introductions to lessons. Punctuality is an essential life skill that needs to be taught from the very beginning. As the mornings are colder and darker, think about giving yourselves an extra 5 minutes in the morning to layer up with coats, scarves and hats to get to school by 08.45. Our lessons start as soon as the children arrive and being late by just five minutes each day can mean your child missing the start of the same lesson every day, hindering their progress and impacting on their education.

Further guidance on school attendance can be found here: <u>https://</u> assets.childrenscommissioner.gov.uk/wpuploads/2022/12/aaa-guide-for-parents-on-school-

Author visit—8th February

We are very excited to be welcoming Neil Griffiths to our school again on 8th February. Neil has written over 30 wonderful children's picture books, including Itchy Bear, Esme's Eggs, The Journey and Sneezy Bear, which have been illustrated by fabulous artists from all around

the world. They feature strong storylines and cover subject areas from minibeasts and farm animals to the seasons and disability. Neil will be telling stories to the children, running a reading workshop for parents and holding a book sale after school.

Friends of Badbury Park Primary School

We would like to say a huge "Thank-You", to everyone who was able to support the Christmas events & activities which raised a wonderful **£1430**, and will directly benefit the school and pupils.

We would like to encourage anyone who may be interested in joining our volunteer or committee groups to please get in contact. We have some exciting plans ahead and would love more of our parents to get involved if you can please. To find out more, contact us, in person or, via our FOBPP Facebook page or, by email using <u>friendsofbadburyparkprimary@gmail.com</u>

BRUNEL HEALTH GROUP

The Brunel Health Group, in partnership with local GP surgeries and the Public Health Nursing Team, are offering a new service for 12 months aimed at supporting new mums. The service focuses on Healthy Diet and Lifestyle, Managing Minor Illness, Weaning, and Smoking Cessation support as well as Oral Care.

The EYHAS approach involves engagement at baby and toddler groups, participation in Health Visitor Clinics, and the delivery of sessions in a fun and interactive way, designed to educate. Considering the prevailing cost-ofliving challenges, the service goes beyond advice by connecting parents with additional resources.

If you would like further information or to register your interest in one of the sessions, please email <u>bswicb.eyhas@nhs.net</u>
